Index to AGRICULTURAL ENGINEERING

Volume 30 — January to December, 1949

Issue	Pages
JANUARY	1- 48
FEBRUARY	49-104
MARCH	105-156
APRIL	157-212
MAY	213-260
JUNE	261-316
JULY	317-356
AUGUST	357-404
SEPTEMBER	405-460
OCTOBER	461-508
NOVEMBER	509-548
DECEMBER	549-604

This is a combined alphabetical index to the contents of AGRICULTURAL ENGINEERING by authors, regular features, professional interests and subject matter, including plants and animals concerned, materials, machines, processes, and key words in titles.

A

Accidents, Farm (See Safety)

AGRICULTURAL ENGINEERING (Agricultural Engineers)
- Agricultural engineering and professional growth — 20
- Another curriculum (editorial) — 63
- A development relating to agricultural engineering in the land-grant institutions — 191
- Agricultural engineering serves the tourist and resort industry — 195
- Agricultural engineering — past and future — 327
- Adventures in understanding — the engineer as a citizen — 417
- Agricultural engineering in the Americas — 419
- Opportunity for the young engineer (letter) — 535

Air Conditioning (See Drying Structures, Ventilation)

Airplane as an agricultural implement, The — 442

Air purification unit for apple storages, An — 242

Althouse, Irvin H.
- Water and irrigation needs of the Pacific Coast — 387

Ashby, Wallace
- Observations on farm building activity — 235

Awards (See Medalists)

Ayers, H. D.
- Farm reservoir and pond program for Canadian prairies — 177

B

Baggette, Thomas L.
- Thinning cotton to a stand with flame — 489

Barger, E. L.
- Results of tests on mechanical unloading devices for chopped forages — 223

Barnett, Aurelius P.
- Runoff and soil loss measurements by cropping periods — 173

Barre, H. J.
- Air flow in poultry house ventilation — a theoretical analysis — 331

Barrett, R. D.
- Determination of loads required to lift hydraulically-operated implements — 479

Bearing practice in current farm machinery applications, Tapered roller — 285

Bearings in farm machines, Applications of needle — 229

Berry, M. O.
- Equipment and procedures for farm tractor tire studies under controlled conditions — 67

Beets, The storage of sugar — 377

Bienemann, R. D.
- Lightning protection for farm structures — 172

Blowers, Performance characteristics of long hay — 439

Bond, T. E.
- Instrumentation for animal shelter research — 297

Bouyoucos, G. J.
- Measurement of soil moisture by the electrical resistance method — 581

Boyd, James S.
- Results of research in lightweight concretes (discussion) — 133

Bradshaw, George B.
- Tile effluent measuring devices — 134

Brune, Gunnar M.
- Reservoir sedimentation in limestone sinkhole terrain — 73

Buie, Thomas S.
- Conservation research (letter) — 36

C

Calkins, Robert S.
- Population, soil and engineering — 367

Campbell, Lowell E.
- The use of ultrasonic energy in agriculture — 239

Carleton, W. M.
- Results of tests on mechanical unloading devices for chopped forages — 223

Carreker, John R.
- Runoff and soil loss measurements by cropping periods — 173

Carter, Deane G.
- Some concepts of farm building management — 65
- Structures setup meets emergency (editorial) — 269

Chemical weed control, Progress in — 78

Clyde, A. W.
- Cushion hitch developments — 169

Collective systems, A weakness of (editorial) — 9

Combines, An economic study of — 274

Concrete in animal shelters, Vermiculite insulating — 572

Concretes, Results of research on lightweight — 129

Condensation, A diagram for determining wall-surface — 336

Conditioning and storage, Grain values to be safeguarded during — 586

CONSERVATION, Soil and Water (See also Drainage, Erosion Control, Hydrology, Irrigation, Soils, Water Resources)
- A study of the movement of surface wind — 11
- Reservoir sedimentation in limestone sinkhole terrain — 73
- Farm reservoir and pond program for Canadian prairies — 177
- Economics of soil conservation — 226
- The day of reckoning is here (editorial) — 365
- Population, soil and engineering — 367
- Machinery for the conservation farmer — 420
- Reservoir and pond construction problems — 443

Cooler for holding cream, A low-cost mechanical — 525

Cooler for use of heat removed from milk, Milk — 531

Conveyor-belt gutter cleaner, Developing a — 569

Corn, Progress in methods of drying — 131

Corn with forced air, An adaptation of drying — 471

Cottons, Cleaning manually and mechanically harvested — 497

Cotton, Cultivation for weed control in — 490

Cotton, Cultivation and weed control of — 491

Cotton harvesting with the spindle picker — 496

Cotton harvesting in the Southwest, Engineering management aspects of mechanical — 492

Cotton mechanization field studies — 484

Cotton to a stand, Planting — 487

Cotton to a stand with flame, Thinning — 489

Cotton, Stalk disposal and land preparation for 485

Cotton with strippers, Harvesting 493

Coulter design, Improved rolling 590

Cowart, Linton E.
Cultivation for weed control in cotton 490

Crabb, G. A., Jr.
Measurement of soil moisture by the electrical resistance method 581

Cream, A low-cost mechanical cooler for holding 525

Creasy, Lawrence E.
Cultivation for weed control in cotton 490

Curtis, George W.
Tapered roller bearing practice in current farm machinery applications 285

D

Dairies, Design standards for grade A plant producer farm 271

Dehydration (See Drying)

Dodge, J. Robert
Nation-wide farmhouse research 233

Donnan, William W.
Tile effluent measuring devices 134

DRAINAGE, Land (See also Hydrology)
Some tile drainage experiences 81
Tile effluent measuring devices 134
Practical aspects of controlled drainage 280
Drainage investigations in the plastic till soils of northeastern Illinois 384
Piezometers for ground-water flow studies and measurement of subsoil permeability 435

Drawbar testing at the Nebraska tractor testing laboratory, Method of 429

DRYING (Driers)
An adaptation of drying corn with forced air 71
Progress in methods of drying corn 131
The development of a farm crop drier 475
Fire safety aspects of crop drying equipment 579

Dykes, J. C.
Machinery for the conservation farmer 420

Dynamometer for testing tractor uses, Electric 433

E

Edgar, Alfred D.
A diagram for determining wall-surface condensation 336

EDITORIALS
Accessibility of information 9
A weakness of collective systems 9
Another curriculum? 63
Farm power management 63
Farm houses or debtors' prisons? 117
Rural processing 117
Research pays 167
Nebraska test values 167
Uniform plumbing code 167
Improving advice to farmers 167
Agricultural education 221
The engineering snowball is rolling 221
Structures setup meets emergency 269
Opportunities for agricultural engineers 269
Engineering farm work functions 269
Human "motive" power 325
Another depression? 325
Southern comfort 325
The day of reckoning is here 365
Flexibility in engineering employment 365
Effects of mechanization 415
Engineering frontiers 415
Progress in registration 473
Sectional organization 473
Engineering for the small manufacturer 473
Engineers sell ideas 517
Agricultural research and production efficiency 517
Costs and prices 517
Work for agricultural engineers 563

Education, Agricultural (editorial) 221

ELECTRIFICATION, Rural (See also Refrigeration)
Some aspects of agricultural and horticultural electrification in Great Britain 14
The thermocouple in agricultural research 275
Calculations for milkhouse heating purposes 294
Testing electrical products for farm use 341

Engineer as a citizen, Adventures in understanding — The 417

Engineering snowball is rolling, The (editorial) 221

Engineers sell ideas (editorial) 517

Erdner, Paul L.
A new type of prefabricated building 477

EROSION CONTROL, Soil (See also Hydrology, Soils, Terracing)
Runoff losses from permanent pastures and woodlots 80
Soil loss as determined by watershed measurements 137
Runoff and soil loss measurements by cropping periods 173
Effect of slope and length of run on erosion under irrigation 379

Ethics for engineers, Canons of 190

F

Farmhouse research, Nation-wide 233

Farm power management (editorial) 63

Farm reservoir and pond program for Canadian prairies 177

Farrall, A. W.
A low-cost mechanical cooler for holding cream 525

Ferguson, J. C.
Cotton mechanization field studies 484

Ferguson, J. E.
A modified venturi section for measuring irrigation water in open channels 584

Fletcher, Leonard J.
Adventures in understanding — The engineer as a citizen 417

Forage, Development of mechanical equipment for unloading chopped 188

Forages on the farm, Handling chopped 127

Forage, Vacuum unloader for handling 141

Frudden, C. E.
Applications of torque converters in farm machines 423

G

Garton, J. E.
A modified venturi section for measuring irrigation water in open channels 584

Giese, Henry
Farm structures — a forward look 565

Grain storage problem in 1949, The 370

Grain values to be safeguarded during conditioning and storage 586

Gray, H. E.
An air purification unit for apple storages 242

Gunkel, W. W.
Results of tests on mechanical unloading devices for chopped forages 223

Gunn, C. A.
Agricultural engineering serves the tourist and resort industry 195

Gutter cleaner, Developing a conveyor-belt 569

H

Hansen, C. M.
The storage of sugar beets 377

Hansen, E. L.
An agricultural engineer in Iran (letter) 248

Harker, David H.
Practical aspects of controlled drainage (discussion) 283

Harrold, L. L.
Soil loss as determined by watershed measurements 137

Haswell, John R.
Some tile drainage experiences 81

Hawthorn, Fred
Handling chopped forages on the farm 127

Hay blowers, Performance characteristics of long 439

Heat removed from milk, Milk cooler use of ... 531
Hickok, R. B.
Runoff losses from permanent pastures and woodlots ... 80
Hitch developments, Cushion ... 169
Hodges, L. H.
The design of a general-purpose farm wagon rack for mechanical unloading ... 124
Holmquist, Nils
Cows heat house ... 425
Hydraulically-operated implements, Determination of loads required to lift ... 479
Hydraulic circuits for farm tractors ... 371
Hydraulic remote control to farm implements, Application of ... 17
HYDROLOGY (Hydraulics)
Hydraulic characteristics of vegetation for vegetated waterways ... 184

I

Instrumentation for animal shelter research ... 297
IRRIGATION (See also Hydrology, Soils, Water Resources)
Design procedure for portable sprinkler irrigation ... 23
Irrigation by water spreading ... 84
Sprinkler or other methods of irrigation ... 86
Practical methods of water application ... 193
Large capacity sprinkler irrigation ... 339
Effect of slope and length of run on erosion under irrigation ... 379
Water and irrigation needs of the Pacific Coast ... 387
Measurement of soil moisture by the electrical resistance method ... 581
A modified venturi section for measuring irrigation water in open channels ... 584

J

Jensen, Max C.
Piezometers for ground-water flow studies and measurement of subsoil permeability ... 435
Johnson, V. H.
A regional program for testing weed-control equipment ... 528

K

Keeney, L. G.
Fire safety aspects of crop drying equipment ... 579
Kelly, C. F.
Instrumentation for animal shelter research ... 297
Kepner, Robert A.
A continuous spray-type seed treater ... 519
Kidder, E. H.
Drainage investigations in the plastic till soils of northeastern Illinois ... 384
Kromer, O. W.
The engineering challenge in spray application ... 524

L

Larsen, L. F.
Method of drawbar testing at the Nebraska tractor testing laboratory 429
Larson, R. E.
A regional program for testing weed-control equipment ... 528
Leach, L. D.
A continuous spray-type seed treater ... 519
Lehmann, E. W.
The airplane as an agricultural implement ... 442
Lewis, M. R.
Sprinkler or other methods of irrigation ... 86
Lightning protection for farm structures 172
Liljedahl, J. B.
Results of tests on mechanical unloading devices for chopped forages ... 223
Long, J. Dewey

Q

Quisenberry, K. S.
Grain values to be safeguarded during conditioning and storage ... 586

R

Ree, W. O.
Hydraulic characteristics of vegetation for vegetated waterways ... 184

Reed, C. H.
Procedure for evaluating factors controlling temperature and moisture conditions in farm structures ... 481

Reeve, R. C.
Piezometers for ground-water flow studies and measurement of subsoil permeability ... 435

Reed, I. F.
Equipment and procedures for farm tractor tire studies under controlled conditions ... 67

RESEARCH
(For procedures and results of specific research work, see corresponding subject-matter headings)
Accessibility of information (editorial) ... 9
Research pays (editorial) ... 167
Research notes ... 33, 98, 244, 443, 498

Reservoir and pond construction problems ... 443

Roscoe, M. W.
Harvesting cotton with strippers ... 493

Rowland, F. E.
Some aspects of agricultural and horticultural electrification in Great Britain ... 14

Runoff and soil loss measurements by cropping periods ... 173

S

SAFETY, Farm
Fire safety aspects of crop drying equipment ... 579

Sammett, L. L.
A development relating to agricultural engineering in the land-grant institutions ... 191
Air flow in poultry house ventilation — a theoretical analysis ... 331

Satchell, F. E.
A low-cost mechanical cooler for holding cream ... 525

Sauer, E. L.
Economics of soil conservation ... 226

Scarborough, E. N.
Cultivation and weed control of cotton ... 491

Schnellbach, Otto
Battle of the Steppes ... 241
German farm machinery show ... 392

Schoenleber, L. G.
The use of ultrasonic energy in agriculture ... 239

Schwantes, Arthur J.
Agricultural engineering — past and future ... 327

Sedimentation in limestone sinkhole terrain, Reservoir ... 73

Seed treater, A continuous spray-type ... 519

Sharp, M. A.
Greeks do well with farm machinery 310

Shedd, Claude K.
Progress in methods of drying corn ... 131

Shields, J. W.
Electric dynamometer for testing tractor uses ... 433

Shipman, R. C.
Milk cooler use of heat removed from milk ... 531

Shurts, Wilbur F.
Present status of hydraulic torque converter development ... 426

Smith, C. W.
Method of drawbar testing at the Nebraska tractor testing laboratory 429

Smith, Harris P.
Stalk disposal and land preparation for cotton ... 485

Smock, R. M.
An air purification unit for apple storages ... 242

Sohl, R. W.
Tractor tire testing equipment 432
Soil loss as determined by watershed measurements 137
Sprague, D. C.
Developing a conveyor-belt gutter cleaner 569
Spray application, The engineering challenge in 524
Sprays with a conventional speed sprayer, Application of concentrate 533
Sprinkler irrigation, Design procedure for portable 23
Stadronsky, Victor L.
Cleaning manually and mechanically harvested cottons 497
Steiff, Harvey W.
Vermiculite insulating concrete in animal shelters 572
Storage, Grain values to be safeguarded during conditioning and 572
Strippers, Harvesting cotton with 493
Strong, Maxton D.
Pioneering in India the American way 369
STRUCTURES, Farm
(See also Drying, Ventilation)
Improved designs for farm grain bin floors, (August, 1948)—
A correction 19
Grading and seasoning of lumber for farm construction 21
New developments in poultry and dairy barn ventilating equipment.. 29
Some concepts of farm building management 65
Farm houses or debtors prisons? (editorial) 117
Results of research on lightweight concretes 129
Lightning protection for farm structures 172
Nation-wide farmhouse research 233
Observations on farm building activity 235
An air purification unit for apple storages 242
Structures setup meets emergency (editorial) 269
Design standards for grade A plant producer farm dairies 271
Instrumentation for animal shelter research 297
A diagram for determining wall-surface condensation 336
The grain storage problem in 1949.. 370
The storage of sugar beets 377
Cows heat house 425
A new type of prefabricated building 477
Procedure for evaluating factors controlling temperature and moisture conditions in farm structures 481
Farm structures — a forward look 565
Sweet potato equipment: sweeps and digger, New 330

T

Tanquary, E. W.
Application of hydraulic remote control to farm implements 17
TERRACING (See Erosion Control)
Terry, C. W.
Vacuum unloader for handling forage 141
Teter, Norman C.
The development of a farm crop drier 475
Testing equipment, Tractor tire 432
Testing tractor uses, Electric dynamometer for 433
Thermocouple in agricultural research, The 275
Tile effluent measuring devices 134
Tire studies under controlled conditions, Equipment and procedures for farm tractor 67
Tire testing equipment, Tractor 432
Torque converters in farm machines, Applications of 423
Torque converter development, Present status of hydraulic 426
Tourist and resort industry, Agricultural engineering serves the 194
TRACTORS, Farm
Farm power management (editorial) 63
Equipment and procedures for farm tractor tire studies under controlled conditions 67
Evaluation of factors affecting the operating stability of wheel tractors 119, 179
Nebraska test values (editorial) 167
Cushion hitch developments 169
Hydraulic circuits for farm tractors.. 371
Method of drawbar testing at the Nebraska tractor testing laboratory 429
Tractor tire testing equipment 432
Electric dynamometer for testing tractor uses 433
Trisler, George E.
Uses and limitations of jet water systems 88
Turney, John A.
Offers publication exchange (letter) 200

U

Ultrasonic energy in agriculture, The use of 239
Unloading devices for chopped forages, Results of tests on mechanical 223
Unloader for handling forage, Vacuum 141
Usry, Sidney H.
The development of a farm crop drier 475

V

Vaugh, Mason
Opportunity for service in India 542
VENTILATION (See also Drying)
New developments in poultry and dairy barn ventilating equipment..... 29
